

B1

a)

	name character varying (1000) 	experience double precision 
1	andrew	3
2	august	1
3	hayden	2

Takes the name and year from the User Table

b)

	name [PK] character varying (200) 	released_date date 
1	MS Word	2011-01-20
2	Sketch	2016-06-15

Get released date from software table. Take the smaller ones from January 1, 2018 only and small to large order output.

c)

```
ERROR: column "users_2019.id" must appear in the GROUP BY clause or be used in an aggregate function
LINE 5: SELECT id,
              ^
SQL state: 42803
Character: 117
```

First It gave error and I deleted ID and

Then it compiled.

	name character varying (1000) 	num bigint 
1	hayden	1
